### **Navy Cyber Forces Sailors Come to Suffolk in 2013**

VIRGINIA BEACH, Va. (Dec 07, 2012) – Navy Cyber Forces (NCF) will be relocating its headquarters staff to the former Joint Forces Command headquarters building in Northeast Suffolk, VA. Relocation efforts will begin in August 2013

NCF is currently located at Joint Expeditionary Base (JEB) Little Creek-Fort Story, Virginia Beach, VA. Its leadership is working closely with the City of Suffolk and Mayor Linda Johnson to coordinate the move.

“We want to ensure a smooth transition for our Navy Cyber Forces Sailors and their families, as well as for the residents of Suffolk,” said Rear Adm. Gretchen Herbert, Commander of Navy Cyber Forces.

Over the next six to eight months, the installation of several required network systems into the buildings will begin.

“The relocation of the Navy’s Cyber Forces to Suffolk is a validation that Suffolk remains a premier location for cutting-edge defense technology operations,” said Suffolk Mayor Linda T. Johnson. “It is an honor and a privilege to welcome these heroes to our community as they protect and defend the freedoms we hold dear.”

2465 Guadalcanal Road, Suite 10  
Virginia Beach, VA 23459-3228*

NCF has been housed at JEB Little Creek-Fort Story since its inception in February 2010. Its mission is to provide relevant, resilient and effective command, control, communications, computer, combat systems and intelligence capabilities, and a highly trained cyber workforce to maximize Fleet readiness and support all missions through cyberspace.

For more information about NCF and/or its relocation plans, please contact the Public Affairs Dept. 757-492-8738.
